At least 70 per cent of the unemployed are capable, willing workers lacking opportunity, according to the public statement of the head of a well-known charity organization. A FEW REVIEWS OF THE BEST SELLER

New Haven Union: "The book, like the proverbial widow, is so dangerously fascinating in style that one does not care to commence to read it until they have time to finish it."

ward rapidly for Chicago's Lincoln centennial celebration. The executive committee of the committee of 100 appointed by Mayor Busse to carry Gut the plans for the centennial celebration of the birth of Abraham Lincoln, February 7 to 14, has been informed by the chairman that the committee of the centennial celebration of the birth of Abraham Lincoln, February 7 to 14, has been informed by the chairman that the committee of the carried and unreproved pen and let her imagination have full sway."

The Cincinnati Times-Star says: "Let us introduce the 'Wild Widow.' She comes from England, where Paul

of "Three Weeks" lived. Gertie De S. Wentworth-James is the authoress. It is frankly an unusual story that comes perilously near the jumping-off place into the realms of unclad and virgin realism. It is passionate, palpitating, and ingenious. The plot is unusual and the English readers liked it much."

The Milwaukee Free Press says: "The Wild Widow' is well named. Katherine Orlitson, with her striking looks and red hair, is the adventuress of imagination and originality. Her friend, Honora, was one of the true feminine type. Katherine being one of whom it was sure to be said that the gray mare was the better horse. Between them these ladies contrive to juggle with some of the deadly sins and to fracture several of the commandments, and when at last it turns out that none of the ten is broken beyond repair, nobody will be more justly surprised than the reader of this extraordinary tale."
